

Editing an Email Account on the iPhone or the iPod Touch

The following tutorial is provided as a courtesy to our customers to help you configure your iPhone software to work with WrapMail's Outgoing Server. If you have further questions about your iPhone please visit <http://www.apple.com/support/iphone/>

Enter account settings directly on iPhone

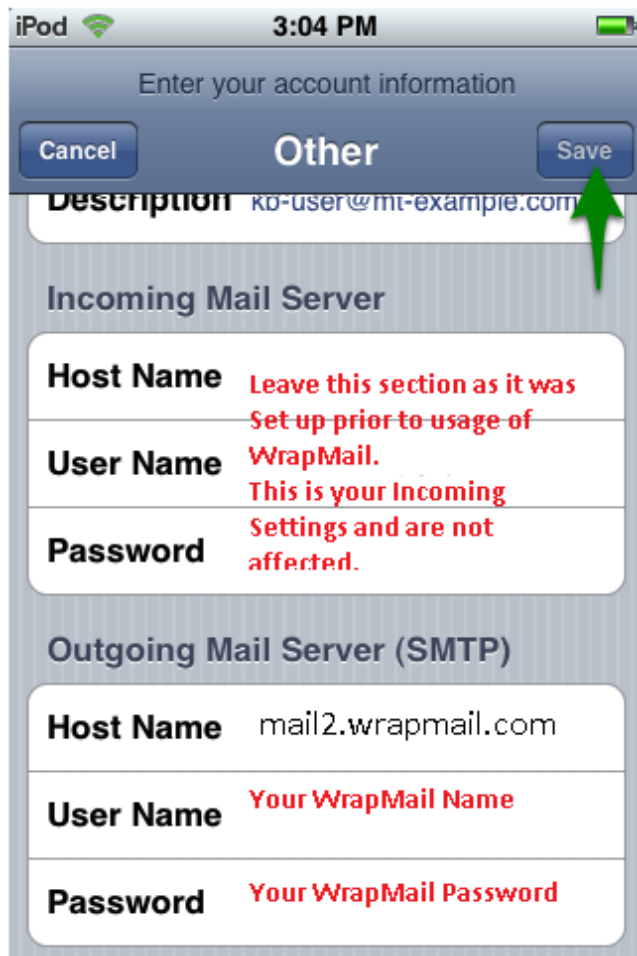

1. If this is the first account you're setting up on the iPhone or the iPod Touch, tap **Mail**. Otherwise, from the Home screen choose **Settings > Mail > Accounts > Add Account**.

2. Tap Mail

3. Choose the account you wish to use WrapMail with.

Fill in your information:

- **Outgoing Mail Server (SMTP) Host Name** mail2.wrapmail.com
- **User Name** Your Wrapmail Name
- **WrapMail Password**
- and Tap **Save** to save the entered information.

5. Upon successful completion of the mailbox setup you are taken back to the Mail Settings screen.
